If the Expenditure cannot be kept, - [illegible] till June next - then I think it will be best to treat the case as one of additional grant. The arrears connected with the Reception Expenditure will more than absorb the small savings that we can anticipate under individual heads - so it is useless to make reappropriations for small items of the present nature.

Being an establishment charge Sanction to the ~~Est~~ Entertainment of the establishment with effect from a certain date will be sufficient for audit purposes. As regards the Budget rule, it might be said that the ~~Civil Surg~~ Senior Surgeon should arrange, as far as possible, to keep the whole of the Expenditure on the Medical Service (including the Expenditure on the present establishment) within the total grant for the year - subject to a formal report of any possible excess in April 1907.

Sir,

I have the honor to invite the attention of Government to the fact that the new hospital at Robertsonpet, Kolar Gold Fields, is fast nearing completion, and for its efficient work-ing it is necessary that an adequate staff be provided, and -- that they be housed in the immediate vicinity of the hospital.

2. I accordingly enclose for favor of sanction of govern-ment a proposition statement for an establishment, and request that very early steps be taken to provide those I have marked in red pencil with quarters. In addition to these quarters should also be provided for a Sub Assistant Surgeon and for two Hos-pital Assistants .

3. The reasons which make it necessary for these offici-als to be housed in the Gold Fields area are too apparent to require enumeration, but it is obvious that if quarters are not provided and the officiald live scattered abroad in the fields
